

## LESION

Lesion is a word used to refer to any variation of normal skin. It is derived from the Latin laedere – to injure. Common lesions include warts, moles, and cysts. The word should not convey that the finding is benign or malignant.

Lesions can be divided into:

- Primary
  - Abscess
  - Bulla
  - Comedo
  - Cyst
  - Hive
  - Macule
  - Papule
  - Pustule
  - Vesicle
- Secondary
  - Atrophy
  - Crust
  - Erosion
  - Lichenification
  - Oozing
  - Patch
  - Plaque
  - Scale
  - Ulceration
  - Weepi
